### Accessories

Remote control and batteries

HDMI cable

### Important - Safety instructions

- Read these instructions carefully and keep for future reference. Note all warnings.
- The product contains no user-serviceable parts. Refer all servicing to qualified service personnel.
- Handle the product with care and do not attempt to dismantle the product.
- Do not expose the product or its accessories to any liquids, rain or moisture.
- Do not locate the product near a heat source and do not block ventilation holes: the product will become warm during operation. Allow at least 10 cm (4") around the product for air circulation.
- Do not place the product where it may be subject to physical shock, vibration or where the product may fall over.
- Do not place the product on soft furnishings or carpets.
- Only use the power supply provided by the manufacturer. The use of any other type of power supply may invalidate any approval or warranty applying to the product and may be dangerous.
- Protect the power supply cord from damage.
- Before disconnecting the device from the power supply cord, first remove the power cord from the main outlet.
- Disconnect the product from the mains supply if left unused for long periods of time or during electrical storms.
- Disconnect the product before cleaning, and use a dry cloth only.
- Only use attachments and accessories specified by the manufacturer.
- The product is for indoor use only.

## 1. Overview of the GO Android TV Box

1. Power/Activity LED and IR receiver.

1. DC power input 5V 2A.
2. HDMI port.
3. Analogue A/V output [adapter available as an optional extra].
4. Ethernet port.
5. 2X USB port. **DO NOT** use this port for Powered USB. Use for external storage media such as USB flash drive [external storage media must be formatted as FAT32]. You can also update software and program lists using this connection.
6. MicroSD Slot.

## 2. Connecting the GO Android TV Box to a TV

**Warning!** Before connecting or disconnecting any cable, switch off all system devices [TV, A/V Amplifier, etc.] and disconnect from the main electrical supply.

The GO Android TV Box provides options for connecting audio and video to your TV:

**HDMI** [recommended]: Best quality. Connect an HDMI cable to the HDMI output of the GO Android TV Box and to the HDMI input of your TV.

**Analogue A/V:** Good quality. SD only composite with analogue audio left/right.

### Starting up your GO Android TV Box and connecting to Wi-Fi

Once you have connected your GO Android TV Box to your screen;

- Switch on your GO Android TV Box and screen;
- Follow the easy step-by-step instructions shown on-screen.

Once finishing the step-by-step instructions you would have successfully set-up your GO Android TV Box and connected to Wi-Fi.

Should you require further support visit the How-to-Video available on the **GO** website [www.go.com.mt/amigo7x](http://www.go.com.mt/amigo7x)

For any Wi-Fi related issues that you may encounter kindly contact your internet service provider. This includes information on how to obtain your Wi-Fi details.

### 3. Connecting the GO Android TV Box to an A/V receiver

Connect an HDMI cable to the HDMI output of the GO Android TV Box and to the HDMI input of your A/V receiver or home cinema system.

### 4. Connecting the GO Android TV Box to the power supply

**Warning!** The GO Android TV Box must only be used with the supplied power adapter.

Connect the power adapter to the power input of the GO Android TV Box, then connect the power adapter to the mains supply.
